Goebbels' Paper Charges Plot of Officers in Army

Tension in German Relations Increased by Publication of Alleged Conspiracy in Der Angriff

BERLIN, April 29.—Tension in German-Czechoslovak relations was increased today by publication in Der Angriff, organ of Propaganda Minister Joseph Goebbels, of a charge that Czechoslovak army officers had plotted a "monstrous attempt" on the peace of Europe.

HITLER-STALIN BOGEY ARISES TO SMITE FOE

Little Dreamed-Of Soviet-Nazi Alliance Is Reported Possible

NEW YORK, April 29.—A little dreamed-of alliance between Soviet Russia and Nazi Germany was reported in a London dispatch in the New York Herald Tribune today to be considered within the realm of possibility.

Reporting on the fruitless Anglo-French conversations, the Herald Tribune's London correspondent wrote: "The bogey of Hitler and Josef V. Stalin forgetting their ideological differences and forming a powerful partnership is real to the French and the British right now."

"There is some talk that Russia is preparing to smile Japan and then hook up with Germany to defeat the destinies of two continents."

The dispatch also said it was learned from British negotiators that the British government had been informed by the Soviet government that the Soviet Union was interested in the purchase of the United States 500 latest-type Curtiss planes, believed to be fast fighters, to bolster her air force.

Divers Seeking Only Body of Truck Driver

HOMESTEAD, Fla., April 29.—Rescue divers today were searching for the body of a truck driver who was killed in a collision with a car on the highway here.

The truck driver, who was killed in a collision with a car on the highway here, was found by divers today.

MONTREAL BANS MAY DAY FETE

MONTREAL, April 29.—No May Day parades or demonstrations will be permitted in Montreal, police director Fernand Dufresne announced today.

Parliament Hill General Election Speculation High

OTTAWA, April 29.—Everyone on Parliament Hill is speculating on whether a Dominion general election will be held before the end of the present year.

The last official word on the subject came from Prime Minister Mackenzie King before the present session of parliament. The Prime Minister's statement was an emphatic declaration that there was no need of an election, and no indication the government, with its huge majority, did not enjoy the confidence of the people.

Although there has been no indication the government was giving any further consideration to an election, private members on both sides of the house are talking about possibilities.

BENNETT RETURNS
Says Mr. King's statement, B. H. Bennett, Conservative

Former U.S. Sub Gives Toronto Gasp

Moving slowly into its dock in Toronto harbor, with a crowd of people gathered on the shore to see it, the S-49, a peaceful invasion of Canadian waters in far different style than that for which it was planned. The submarine was a modern under-water fighting craft, in 1931 and out of the United States government over \$2,000,000.

LONDON STIRS TO INTENSIVE LABOR DRIVE

British United Press Cable Service to Edmonton Bulletin

LONDON, April 29.—London has suddenly awakened to the fact that Labor's intensive drive is having a nation-wide effect. The realization came with the removal of the ban preventing cabinet members taking part in by-elections. Removal of the ban followed the activities of Labor's ex-cabinet ministers in recent by-elections, later today, the influence of the former ministers having a big effect in swaying the decision of the public.

The new move on the part of the government does not necessarily mean that Prime Minister Neville Chamberlain, B. H. Hon. Samuel Hoare will aid candidates in the by-elections, but it will leave lesser members of the government free to campaign and explain the government policies.

CAUSES PERTURBATION
Although the government is satisfied that the country at large is behind Neville Chamberlain in his efforts to preserve world peace, the fact of seats at Ipswich has caused some perturbation, and the prime minister and his colleagues are being sent against the last Japanese.

CLASSIFIED

Looking for a small suite? There's a nicely furnished housekeeping suite, 2 rooms, later today, it is located on 96 street and the rent is very reasonable. (Heading "Housekeeping Room.")

Have you a model car to swap? Advertiser will swap his 1936 deluxe sedan and piano, both in good condition, for later model car or stereo. (Heading "Swap.")

An exclusive home on the South Side, large, four bedrooms, is to let seasonally. (Heading "House, Burn.")

A real buy for cash, 1930 Chevrolet sedan, with heater, six tires, in good condition, for later model car or stereo. (Heading "Swap.")

Enjoy listening to popular radio programs while you drive? Buy the General Electric car radio, in excellent condition, advertised today. (Heading "Auto Accessories.")

Sacred Expert Power Released From Prison

Balance of His Six Months' Term Commuted By Statement From Minister of Justice Lapointe

OTTAWA, April 29.—Rt. Hon. Ernest Lapointe, minister of justice, today issued an order pardoning G. F. Powell, British Social Credit advisor to the Alberta government, and commuting the remainder of his six-month sentence.

POWELL GETS RELEASE FROM JAIL AT NOON

MacLachlan, Baker and Byrne Drive to Fort to Meet Technical

George F. Powell, Douglas Social Credit technician and advisor to the Alberta Social Credit Board, was released on parole from the Fort Saskatchewan jail at noon on Friday, at almost the half way mark of his six months with hard labor sentence being served following conviction by Mr. Justice W. C. Fry on a charge of defamatory libel "well knowing the same to be false."

He entered the Fort Saskatchewan jail on Feb. 19, and the half way mark of his sentence would have been May 19.

Mr. Powell was met at the jail by Glen L. MacLachlan, chairman of the Social Credit Board, Floyd M. Byrne, secretary, and L. D. Byrne, technical advisor to the board. They had taken his plain clothes out to him.

The party drove out to the Fort in Mr. MacLachlan's car. A small group of people had congregated at the main entrance to the jail, but no one was admitted.

CANUCKS MOST TALKATIVE RACE IN WHOLE WORLD

OTTAWA, April 29.—Canadians are the most talkative people in the world and they are getting even more so.

Anglo altogether from the world's briefs presented to Royal commission and the 4,000,000 to 6,000,000 words spoken in the House of Commons each session, telephone statistics showed a tremendous increase in the number of calls.

Baseball

CHICAGO, April 29.—Dizzy Dean, the pitcher for whom Chicago Cubs paid St. Louis Cardinals \$100,000 and three players \$25,000 each, was found in his salary arm and had to be taken out of the Cubs-Cincinnati Reds game in the fourth inning for day.

Dean, attempting to win his third victory this season as a Cub against Philadelphia, was hit by a line drive from pitcher to Lou Rieger, but expressed the opinion that the injury would not prove serious.

Manager Grimm took no chances, however, and sent Jack Doolittle to the mound.

DEFENCE NEED IS POINTED OUT BY MACKENZIE

Direct Risks Facing Country, Says Minister of Militia

MONTREAL, April 29.—The "absolute" necessity for an efficient Canadian defence force was stressed last night by Hon. Ian Mackenzie, minister of militia, in an address here.

His said direct risks facing the country included possibility of invasion of Great Britain might attempt to blockade Canada's ports or to destroy terminals and shipping by air.

Mr. Mackenzie said both direct and remote risks confronted Canada in the event of a European war. A remote risk was that a foreign military, emboldened by the success of the German blitzkrieg, might attempt invasion and conquest. He felt, however, there was little reason to assume that risk as being remote if Canada chose to stand alone, relying solely upon her own capacity for defence.

The defence program of the Pacific coast had been given first consideration, the minister concluded, with the security of the air force, the navy and the army, and the importance of blockade terminals and shipping by air.

U.S. RAILWAYS TO CUT WAGES, STARTS JULY 1

CHICAGO, April 29.—The Association of American Railroads adopted today a resolution under the Railway Labor Act to serve notice on the U.S. Government of its intention to cut wages for all classes of labor.

The cut would represent a saving of \$200,000,000 annually to the railroads, the association said.

In a memorandum, the association stated the wage cut was necessary because of loss of revenue and increased depreciation of rolling stock.

Norfolk Winner

WILMINGTON, Del., April 29.—Thomas Mann, German exile, was named today as the winner of the Nobel Prize for literature.

Mr. Mann, 59, was born in 1878 in the German province of Schleswig-Holstein. He was a member of the German parliament and a member of the Reichstag.

Western Canada Sacred Group Is Now Considered

Formation of a Western Canada Social Credit Association, comprising Alberta, British Columbia, Saskatchewan and Manitoba, was decided on at an interprovincial conference of Social Credit representatives which met at the legislative buildings on Thursday.

This association will affiliate with the Eastern Canada Association when formed.

Called for this purpose, the conference, which was held at the University of Regina, decided to carry through the plan, subject to the approval of the various provincial associations.

Urgent Requests
This meeting was called by the urgent request of various governments, both in the west and the east. The western groups are organizing.

Chairman of Employment Commission Charged With Irregularities

New Party Forms In United States: Lafollette Is Head

National Progressives of America Come Into Being at Mass Meeting of Liberals in Madison, Wisconsin

By KENNETH HOPPING
Associated Press Staff Writer.

MADISON, Wis., April 29.—Governor Philip F. La Follette of Wisconsin announced last night formation of a new political party—the National Progressives of America—dedicated to a philosophy of preserving the "right of a free people to work, and by their work to add to the wealth of the country."

The Wisconsin governor, son of the first La Follette, who failed in a campaign for the United States presidency in 1924, today announced the formation of the Democratic and Republican parties never can unite on a fundamental program to restore economic equilibrium and that the time had come for an entire new movement to go forward.

BEGINNING MADE

The decision to create a new party, which he had announced last night, was announced in these words:

"A beginning has been made, here and now, not in 1924, not in 1928, but now, in 1938.

"The National Progressives of America are now organized. State by state we shall build as rapidly as we can a new party. We shall definitely and irreversibly be in the fight to stop until the American people recapture their 'right to work.' Make no mistake, this is not a slogan. As certain as death, the risk, we are launching the party of our time."

LA FOLLETTE

In a final break with the New Deal administration Governor La Follette said tonight in the "hallways" of the Wisconsin State Capitol building that he had declared that leadership alone, no matter how great, cannot lead a political act and water."

He said if the lack of rehabilitation had been suggested by popular confidence and affection for the leadership of Roosevelt, the job would have been done long ago under his administration. The party disavowed any determination of hampering the administration.

La Follette did not disclose the identity of "important leaders" he mentioned previously. He had said that he had joined the new party movement. One, it is believed here, is his brother, Senator Robert M. La Follette, Jr., Mayor Laguardia of New York has spoken sympathetically of the party's aims.

VAST RESOURCES

The governor declared there were vast resources to be put to use for the benefit of all classes and that the new trend in government must be one of expanding rather than curtailing production. On the side of production he later mentioned the importance of the railroads and a "big overhauling" of improving housing conditions at two points in his field.

"There are only two hundred of us here," he said, "but we have two billion dollars of capital to work and create millions of new wealth creating jobs. They alone will create unemployment in America for years."

"A program of constructive action is not difficult to think of or agreed upon. Our great difficulty is getting a government that will solve the problem and has the courage to act."

AT CROSSROADS

"We are now at the crossroads," the governor added. "We cannot turn to capitalism or to socialism, we cannot turn to fascism or to communism. We are now at the end of a road. The time has come when a new trail must be blazed—a trail that will take the fundamental teachings of the past and apply them to the modern world as we know it."

"They are."

"The ownership and control of money and credit, without qualification, for recreation, for the public and not private control."

STOP AT NOTHING

"The organized power of the nation must stop at nothing to secure necessary steps to restore to every American the absolute right to work and living by the sweat of his brow."

"We believe in the basic concept of American government and, in particular, that grants of power always should be safeguarded against abuse. Our great governmental system is in sad need of modernizing. Our present step is to grant the executive branch power to get things done—to get to work on the problems of agriculture, business and industry. But, as we have demonstrated in Wisconsin, this can be done with ample safeguards against arbitrary or dictatorial abuse of such power."

"Those who work on the farm and in the city must be given security, not security founded on the promise of more, or working less for more. We propose security founded on a definite, definite annual income for all, measured by our contribution both in quality and quantity."

OFFICIAL CODING

"We must require every form of coding, or approving the American people—whether it be those on relief, whether it be farmers or workers—whether it be business or industry. No government on earth can successfully manage, regulate industry and direct the numerous details that make for healthy industry and direct the

Governor La Follette

INFORMATION SAID PUT TO PRIVATE USE

Labor Minister Defends Arthur B. Purvis In Member's Attack

OTTAWA, April 29.—Arthur B. Purvis of Montreal, chairman of the National Employment Commission, took advantage of his position to gain confidential information of his business competitors and should be deported from Canada, it was charged in the House of Commons last night by J. F. Pouliot, Lib. Member for St. Louis.

While writing a report on general employment conditions in 27 of 29 industries in Canada, Mr. Purvis had something more specific and for which he should be deported from the country," the Quebec Liberal charged.

ROGERS DEFENDS

A few minutes later, Hon. Norman Rogers, minister of labour, went to the defence of the Montrealer who was chairman of the employment commission for two years without salary. He said Mr. Purvis and other members of the commission accepted their work with a keen sense of public responsibility.

From his associations with Mr. Purvis, the labor minister was convinced he "was wholehearted and best efforts to the task at hand."

Mr. Pouliot could offer any criticism he liked of the recommendations of the commission, but he should make no reflections on the motives of the commissioners. "I did not impute motive, I stated facts," replied the Quebec Liberal.

SECOND READING

Mr. Pouliot made his charge a few minutes after the house gave second reading to the government's relief bill.

He said Mr. Purvis, in addition to being chairman of the National Employment Commission, was also managing director of Canadian Industries Limited, president of the Dunlop Tire and Rubber Company Limited, and a director of many industries.

One of the tasks of the commission was to write a report on employment conditions in various Canadian industries. Mr. Pouliot said that Mr. Purvis was in a position to secure confidential information on private industries, 29 of them.

"That report for employment conditions is more detailed than the report on unemployment, especially on the chemical industry, power, transport. Our hemisphere here it was destined to ensure peace, security and plenty. It shall remain inviolate for that sacred purpose."

THOUSANDS ARE IN ROUNDUP TO GUARD HITLER

ROME, April 29.—The Italian government Thursday disclosed precautionary arrests were under way in the three cities Chancellor Hitler will visit when he comes to Italy May 3. The number of persons included in the roundup in Rome, Naples and Florence was estimated to run to the thousands. A greater part of these, however, merely were ordered to stay out of the cities until Hitler leaves May 10.

BRITISH BORN FOR RHODESIA

SALISBURY, Southern Rhodesia, April 29.—A scheme to attract British immigrants to Southern Rhodesia is to be launched by the government of the colony working in conjunction with the 1820 Memorial Settlers' Association. The greater part of the cost is to be borne by the Southern Rhodesian and British governments in equal contributions.

"It is the definite policy of the government to maintain the British population of the colony and it is with this object in view that the scheme has been started," states an official memorandum.

Life Insurance Business Takes Decided Growth

As an indication of the purchasing power in Canada, life insurance is possibly more sensitive to variations than any other single activity. In this connection it is worthy of note that the sales of Ordinary Life Insurance in Canada by the London Life for the first quarter of 1938, which does not include Group or Industrial, amounted to \$1,000,000, an increase of twenty-seven per cent over the corresponding period of last year. This record indicates that Canada is enjoying a good measure of prosperity and its citizens are placing strong financial bulwarks around their homes and businesses.

Since this company confines its entire activities to Canada, its experience is of considerable value to Canadians.

"Data from all industries," interrupted the labor minister. "And especially those industries which are mentioned in that report," agreed Mr. Pouliot. "There is the rubber industry, he is the president of the Dunlop Tire and Rubber company."

At this point Mr. Pouliot claimed that Richard Baker (Con, Toronto, Edlington), once telling him to "shut up" a phrase he was asked to withdraw by Speaker Craig.

B.C. PREMIER BELITTLES IDEA NEW PROVINCE

Pattullo Can't See Need For Peace Block Division

MONTREAL, April 29.—Premier T. D. Pattullo of British Columbia arrived here today, spent some hours on government business and prepared to leave for Washington where he hopes to have some informal chat with President Roosevelt.

Mr. Pattullo, who hopes to discuss further the suggested Alaska highway project in which President Roosevelt, evinced keen interest while visiting the coast, had little to say to reporters. He spoke casually of the Oriental population in British Columbia, was optimistic over the province's economic position, and spoke lightly of a proposal to create a 10th province for the Dominion in the northern sector of British Columbia and Alberta.

"There was a lot of talk of making another province out of the northern section of British Columbia," said the premier, but nothing ever came of it. A lot of nonsense, you know, when you stop to consider the first thing needed would be a lot of money."

"Well, I don't think there's enough money behind such a move. Probably nothing ever will come of this recent step, either. As a matter of fact, I don't think they are so anxious to create another province as they are to take some sort of action that will attract attention to their problems out there. I think that's the main idea behind such a movement."

After a two-day stay in Washington, Mr. Pattullo will return to Ottawa, and possibly visit Toronto before returning to Victoria.

Ex-Edmontonian

VICTORIA, April 29.—Arthur Eaton, 74-year-old former resident of Edmonton, died here yesterday. He was born in Blackpool, England, and had lived here several years after leaving Alberta. He has no known relatives in Canada.

Nazis Ban Her

Maria Basa, concert singer, left, claims that she was forced out of Germany because she "looked Jewish." Miss Basa, shown with Conroy de Hays, is of Persian and German parentage, and arrived in New York when she was forced to flee Germany. She says that \$500,000 she and her brother were forced to leave in a German bank, is tied up by the Nazi government.

Taxicab Meters

Are Approved

TORONTO, April 29.—Approval was given to installation of meters in Toronto taxicabs Thursday by the police commission, subject to the ruling of the Ontario attorney-general regarding whether the commission can force all cab owners to adopt the system. If adopted, the rate will be 25 cents for the first half-mile and 10 cents for each additional half-mile.

Finance Minister Urged To Pare Down Interest On Bonds

OTTAWA, April 29.—Hon. Chas. Dunning, minister of finance, told the house of commons Thursday he never would break the pledged word of Canada in its determination to develop refunding schemes for Dominion bonds and securities.

"I do not believe the example of Mexico and other places is a good example for Canada," he exclaimed during a discussion of refunding bonds of the Canadian National Railways at lower interest rates.

The finance minister was urged from several quarters to pare down the interest rate on \$100,000,000 in new perpetual bonds issued by the Grand Trunk Railway company and assumed by the Dominion as part of the purchase price of the system when it was absorbed into the Canadian National.

All possible steps were being taken to refund direct and guaranteed obligations of the Dominion, Mr. Dunning replied and although the national debt was \$1,000,000,000 higher than in 1924, the total interest payments were about the same.

The average interest on Dominion bonds was less than 3½ per cent, and on railway securities 4 per cent. But it was impossible to touch some of the issues without the consent of the owners of the bonds.

As a parachute begins to open, a tiny whirlpool of air forms below the peak of the dome. This ball of air continues to expand until it covers the lower walls of the parachute open.

London Life Men Make Sales Record

DURING the past three months the public purchased from our representatives Ordinary Life Insurance, exclusive of Industrial and Group, at the rate of a million dollars a week. This is an increase of 27% over the corresponding period last year.

This large volume of new business is a tribute to our sales organization and is very gratifying to the Company from that standpoint.

In the past five years we have accepted as representatives only men who possessed the qualities which extensive research has proven are necessary for success in this business. In the Ordinary Branch this has meant a much smaller but more highly trained sales force and has resulted in greatly increased average production. (The present numerical strength is only 57% of that at the beginning of this development period.) Industrial representatives on the average have doubled their Ordinary insurance sales in this period.

Our salesmen in rendering greater service to the public have been rewarded with a full measure of their confidence, and policyholders have insurance in a company known throughout Canada for its financial strength and low net cost.

SO RICH IT GOES TWICE AS FAR . . .

• Purity and flavour in food have a cash value as well as a taste value. That's why there's government "grade A-1" in eggs. That's why housewives demand a definite butter-fat content in milk. That's why Heinz's is the most famous tomato ketchup in the world. When you consider how this sauce adds your cooking, how it adds zest to scores of different dishes, you surely can't measure its flavour value in money. Certainly not in the trifling extra coppers you may pay for this economical condiment.

Thick, slow-pouring, rich Heinz Tomato Ketchup gives you a wealth of flavour in every luscious drop. Tomatoes, spices, sugar, vinegar, seasonings—every ingredient is the best the market affords. No other ketchup can be quite like Heinz's. Treat the family to this matchless flavour sauce.

Regional Meet Of 'Y' Juniors Set For May

Special plans are being made and active interest being taken in the approaching Alberta Regional conference of junior members of the Y.W.C.A. It was revealed at the monthly meeting of the Board of Directors of the Y.W.C.A. held in the South Hall on Wednesday.

TO BE HELD IN BANFF

Glean in the club and physical education department are especially interested in the event, which is to be held in Banff the last weekend in May. Miss M. Buckley, general secretary of the Vancouver Y.W.C.A., is to be the special national representative at this conference.

Mrs. E. P. Wellwood was appointed by the board of directors to be the representative of the senior advisory committee of the Youth Council and also of the women's department. She will be accompanied by the Dominion Provincial Youth Rehabilitation scheme, Schedule C.

NINE VACANCIES

Announcement was made that the annual situation has taken place. Nine members of the board are vacating it at the same time. Four have finished their term and five are resigning for unavoidable reasons. At the annual meeting which will take place on Tuesday, May 17, new members will be voted in to fill these vacancies.

Short discussion took place concerning the annual demonstration of physical education to be held on Saturday evening, May 7.

Approximately 150 new swimmers have registered for the spring term and the social service department 7 girls and women were assisted and 117 trains met.

MATCH ZIPPER AND BERRY

Match your hat to the zipper on your blouse. A smart Fifth Avenue style is featuring a plain white blouse with tucked blouse, young, flat collar with compass points, and a brilliant apricot up the front. Thinly pressed and of navy blue, a string, parakeet belt which comes in the same color as the zipper, is shown with the blouse.

Graduate Cake, Girl Grad's Just Dessert

Fluffy and gleaming, festive and brilliant—the sweet girl graduates own celebration cake.

By MRS. GAYNOR MADDOX

When a girl graduates, she takes the cake. And this is how you make it.

SWEET GIRL GRADUATE CAKE

Four eggs whites, 3 cups sifted flour, 3 teaspoons combination baking powder, 1 teaspoon salt, 1 cup butter or other shortening, 1 1/2 cups sugar, 1 cup milk.

1/2 teaspoon lemon extract, 4 eggs

whites stiffly beaten. Sift flour once, measure, add baking powder and salt, and combine three times. Cream butter thoroughly, add sugar gradually and cream together until light and fluffy. Add flour alternately with milk, a small amount at a time, beating after each addition until smooth.

Add lemon extract. Fold in egg whites quickly and thoroughly. Bake in two greased 8-inch layer pans in moderate oven (375 degrees F.) for 25 to 30 minutes.

Serve luscious lemon frosting between layers and on top and sides of cake. Decorate top of cake with tiny colored candies and silver dragees.

LUSCIOUS LEMON FROSTING

One tablespoon granulated sugar, 1 tablespoon butter, 3 cups sifted confectioner's sugar, 1 tablespoon lemon juice, dash salt.

Add orange rind to butter. Cream well. Add part of sugar gradually, blending after each addition. Combine lemon juice and water. Add to creamed mixture alternately with remaining sugar until of right consistency to spread. Beat after each addition until smooth. Add salt. Makes enough frosting to cover tops and sides of two 8-inch cakes, or top and sides of 8-inch cake (generously), or about 3 dozen cup cakes.

Sunday's Menu

BREAKFAST: Mixed fresh fruit, 1/2 cup, 1/2 cup cream, 1/2 cup apples, 1/2 cup peaches, 1/2 cup coffee, milk.

DINNER: Roast chicken, giblet gravy, hominy pudding, peas, spring salad bowl, French dressing, maple mustard, coffee, milk.

SUPPER: Casserole of creamed fresh vegetables, small baked mutton, creamed peaches, nut cake, milk.

CHEERFUL CHALLENGE

Flowered chalk will bring spring and gaiety right into your bedroom. A quiver of bed jackets with bright patterns running all over the background could not help but cheer up the invalid. Under your dresser drawers, try little cartooned cheerful faces, scattered set for stockings and handkerchiefs, all in the same gay challenge.

The added varnish extent is that on Egyptian mummy cases. In some instances the varnish is 2000 years old.

Film On Diet Seen By Home Science Group

Interesting because something of the same nature is being carried out at the University of Alberta and in other universities in Canada, the motion picture entitled "Enough to Eat" showing the survey of diet completed in England of the diets of certain classes of people, and what could be done to improve the diet of some of the classes, provided scope for interesting comment and review after it had been shown at a meeting of the Edmonton Home Science Association in the University Hospital "but" one evening this week.

Miss Florence Stacey was hostess to members of the association for the evening.

Another film, showing the production of chocolate from its first source as cacao beans, was another interesting film shown.

Assisting Miss Stacey when tea was served later in the evening, were Mrs. A. Swenson, Miss L. Irving, Miss J. Magers and Miss L. McLean.

Perfume Great Aid On Sogging Summer Day

By ALICIA HART

The woman who is to be truly beautiful from top to toe never overlooks the importance of toilet water, cologne and perfume.

You may be able to get along nicely without perfume of any kind, but you'll find that cologne is something and refreshingly cooling, especially during those summer months, and that a whiff of perfume or toilet water provides the "extra touch" which makes for a feeling of being freshly turned out. And if you feel decidedly groggy to the last minute, then the chances are that others will think so, too.

This is the time to lay aside heavily scented winter perfume and buy lighter odors that are more suitable for summer. The best way to preserve any bottle of perfume, cologne or toilet water until winter is to insert the stopper as tightly as possible, then pour a little paraffin around it. Let the paraffin harden, wrap the bottle and put it in a cool place.

More and more women are buying toilet water instead of perfume for summer use. You are particularly fond of the perfume you have been using, you might like a toilet water in matching scent. Toilet water—not to be confused with cologne—really is a diluted perfume.

Scented colognes are more popular than ever. In single flower odors as well as in mixed bouquet scents, they are wonderful for rub-downs after a bath.

Furthermore, the business woman who wants to look fresh and cool, and fresh at lunch or tea after work, will find that a good perfume is a pretty handy item to have in a desk drawer. She can slip it on neck and arms, and remove it, quickly, rubbing skin briskly as she does so, then clean her face, apply fresh makeup and look like a new person.

TIPS FOR CHILD'S ROOM

Washable walls, hung with some of the new washable papers, are simple painted furniture with easily laundered, rug that is easily laundered, and aluminum and spreads of sturdy, washable fabric are suitable for a young child's room. Choose cheerful colors, avoid unnecessary gadgets or furniture. Be sure that there is plenty of closet space and storage room for toys.

Smiling, vivacious Irene Noblette is one celebrity who tried out her career, found it was "no go," so admitted defeat and changed her career. Miss Noblette used to sing singing lessons with the idea of pursuing an operatic career. However, she gave up the notion. Her teacher suggested it—but gently. She is now one half of the hilarious comedy team of Tim and Irene heard every week on the radio. Her sparkling voice, with her long, sweeping lashes, and her gleaming white teeth add a scintillating playful expression to her very pretty face.

Sonnysayings

I must be getting old, the water doesn't seem so inviting to me as it used to at this time of year.

DOROTHY DIX Says:

DEAR DOROTHY DIX—I am a boy of 18. I have had one year of college and am taking a business course that I am just about to finish. My problem is not about my mother. My father is dead, but neither is a young woman in politics and successful, perfectly able to take care of herself, but she insists that I be always at her beck and call. I had to quit my fraternity because whenever I went out I always had to come home every hour. About the second time she would begin screaming that I would get killed if I didn't go home. An automobile would run over me. When I went to a party she would cry over the phone and tell me to tell the people that my mother was ill and I had to go home immediately. The result is I have given up going anywhere because it is so embarrassing to have to leave as soon as I get to a party. If I make a date with a girl, she makes me break it. But if she goes out to see a friend or to play cards I have to go along and all around and send a boy just because "she would be busy with her." When I speak of leaving she declares she will kill herself if I do. What must I do? Must I stand this all my life?

Answer:

No mother has a right to wreck a child's life as your mother is doing yours, and you will be perfectly justified in leaving her because that is the only way in which you can save yourself. If you stay with her, you will not only be a prisoner who will not have one hour of liberty, but you will also be a slave who will do nothing but fetch and carry and wait upon her whim.

You will never even be a man. She will keep you in a perpetual babyhood, she will never let you grow up and use any of the strength or intelligence that God gave you. If we saw a woman who was doing this to her child, we would consider her brain that was doing this to her child. We would consider it a crime, we would put it in a hurry call for the Society for the Prevention of Cruelty to Children to come and rescue the poor little victim from his mother's prison.

But we constantly see mothers like yours who dwarf their children mentally and spiritually and make them weaklings who can never stand alone, or walk without being held by the hand, and we do nothing about it. Yet the one who is less a crime than the other.

No doubt your mother excuses her cruelty to you by saying that it is because she loves you so much that she does this to you. But she does not consider it your pleasure, but only the good of the child. It is only real selfishness that takes to do of anything but its own gratification, that makes a mother so poisonous that she takes her own happiness at the expense of the child's.

The right sort of mother love doesn't tear down a child. It builds him up. It doesn't seek to weaken him. It strengthens him. It does not consider it its pleasure, but only the good of the child. It is only real selfishness that takes to do of anything but its own gratification, that makes a mother so poisonous that she takes her own happiness at the expense of the child's.

A mother's tears should be sacred, but when she sobs over the telephone until her son comes home from his fraternity meeting, weep until she breaks a date with a girl, or until he gives up every pleasure to sit at home with her, she is only using a coward's weapon to get her own way. It is really a cowardly and she should pay no attention to them.

Not need she worry about her committing suicide. She hasn't the faintest notion of doing it. She has found out that she can terrorize him into doing her bidding by holding that tear over his head and she works it for all it is worth.

DOROTHY DIX

By ELY CULBERTSON

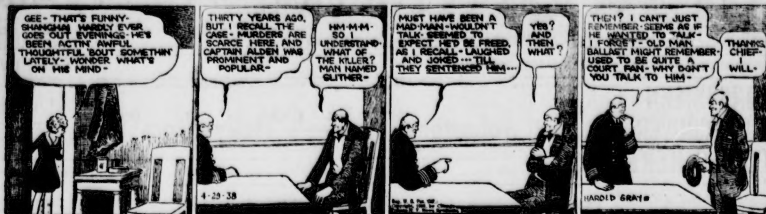

Of all the small aces and kings, now was the simplest thing to do was to throw West on lead.

40 per cent of the time, and force a club return up to the major tenor. Imaginative and sound defense on West's part almost certainly would have led to a far different result. West could not have been forced to make four disc

THE RUGBY CUP FINAL

Bowling

RECREATION LEAGUE

Along the championship trail, the two straight games and the second and third games of the Recreation League season championships the Crows took the first two games in a row. The Crows will meet the North West Manufacturing team for the section title, the winners meeting the Journal crew.

COMMERCIAL TEN PINS

In the Commercial Ten Pins League, section, the Crows were defeated by Liberty Machine. The Machine men took the first game but came back strongly for the next two and won them 27 to 20 and 27 to 20.

COMMERCIAL LEAGUE

The Dental Mechanics had a stiff time in getting out against the Commercial Furniture House of the Thursday night, winning the first and dropping the second. The Dental men won the third game in a row, the Furniture men taking the fourth. The Dental men won out by eight pins. The new men were the Dental men.

Preston Prepared For Huddersfield

Experts Favor Injured Preston Team As 93,000 Attend; King and Queen Will Be In Attendance

LONDON, April 20.—For the second successive year London is preparing for an invasion by north of England soccer enthusiasts for the English cup final. Defeated 3-1 by Sunderland in the 1933 classic, Preston North End will make another appearance at Wembley Stadium Saturday, but this time the Lancastrians clash with Huddersfield Town.

The King will attend this modern battle of the roses expected to draw at least 25,000 visitors from the rival counties of Lancashire and Yorkshire. The number will be swelled by thousands from other parts of the country and the capital. Stadium officials plan to accommodate a crowd exceeding 93,000.

Despite injuries to two outstanding players in the past week, Preston North End is confident of winning the cup. Club officials do not feel their chances are prejudiced. Mine, Scottish international left half, featured his collar being playing against Scotland in the week-end. Kugel, centre forward, injured his knee Monday in a reserve match at Liverpool.

Bailey will take Mines place on the half-back line and Max will come in for Kugel as the leader of the attack. In fact, the team is expected to be in the position in the forward line in nine of Preston's 13 league victories.

The versatile footballer is an old hand at cup play. Back in 1932 he played in the final of the League Cup, which dropped three straight to Toronto in the final. Goldie had a good year with the Blues team and really looked as if he had.

MAJOR LEADS CHEERS

Huddersfield's contingent will probably be led by the mayor and members. Londoners will give a big hand to Hume and Bailey, the Town's winners. Both put in several seasons with Arsenal before going north and the former is a noted Middlesex cricketer.

Hume has been previously mentioned in the press as being the man to lead the team in the position in which Warrand, South African winner, gave a good display in the final. Another expected switch is that of Bailey for Warrand in the position on the attack.

The game will start at 2 p.m. Both teams have already made the trip to the north. Preston is at Bury, just outside the capital, and Huddersfield players will be at the ground at 1 p.m. "Proud Preston," one of the 12 original members of the English league, won the cup in 1933 and since then has been unsuccessful in three final encounters.

In league play this season Preston record has been far superior to that of the cup. Preston is in a danger of relegation to the second division.

Apart from the cup final interest will be focused on Arsenal and Wolverhampton Wanderers in the first of the league title. The teams are tied with 48 points and have both won the cup. The Wanderers entertain Liverpool, consistent point-scoring in recent matches, while Chelsea, who the Wanderers have beaten, will play the Wolves.

Roadside Tennis Club is Active
Final plans were completed for a bigger and better tennis season on the Roadside Tennis Club. At a recent meeting W. Grant was elected secretary, while a caretaker was appointed and is already making preparations for opening of the courts. Several improvements have been started for the coming season.

Mr. Normington addressed the meeting on behalf of the Tennis Association and explained the work of the association and after some lengthy discussion the meeting decided to leave the question of joining the association until a later date.

Play on the courts is expected to start on May 1st.

Two Derby Rivals
Warren Wright's Bull Lea, a Kentucky Derby eligible whippet that was second and first in the \$5,000 added Bluegrass stakes at Kentucky race track, was in the show spot. Bull Lea paid \$300 and \$100 for the 1/4 mile.

The Chicago girl, handicapped by an ankle injury, was eliminated by Harry Wynn, Australian No. 1.

Austin wins his quarter-final at the semi-final of the Bournemouth, Eng., April 20.—Harry "Bunny" Austin reached the semi-final round Thursday in defence of his British lawn tennis championship but Australian finalist, who was defeated in the first round, was eliminated.

The Englishman, who was defeated in the first round, was eliminated.

Out To Bite Off Speed Record

As in an alligator, it's hard to tell where the tail ends and the body begins on this new super-streamlined racing car built at Brooklands, England, for John Cobb's attempt on the world's speed record. At Brooklands on the Utah salt flats next August. As the year wears on, the long-tailed streamlined effect is broken only by the turret in which the driver sits.

Joe Spouts Eloquently For Germany And Der Max

NEW YORK, April 20.—Germany's newest and foremost ambassador of good will, "Yusuf the Music" Jacob, came home from the Rheinland Thursday with the prediction Max Schmeling would pick up some easy marks when he meets Joe Louis for the heavyweight boxing championship June 22.

Yusuf, known to income tax collectors as plain Joe Jacob, spent the first hour of his return home raving about the superb condition of the German boxer, who is happy, nice and comfortable everything was in Germany.

Tingley Heads Prince Rupert Club For Year

At the annual general meeting of the Prince Rupert Club held Wednesday and attended by a goodly number of both old and new members, P. Tingley was elected president for the 1934 season. Other officers of the executive committee were: Vice-president, E. Ferguson, secretary, J. N. Dennis, treasurer, Arthur Ross, team captain, A. Morrison. The tournament committee was also named as follows: J. Munro, A. New, S. Smith, A. Morrison, E. Dingle, along with Walker Taylor and Charles Gilroy as handicappers.

The London "special season" worth about \$15,000,000 in industry.
